About Toys2Go

Brief Company History

The owners of Toys2Go are all avid adventure motorcycle enthusiasts. When looking for luggage solutions for our own adventure trips, we found the market offered limited local (South African) choice and imported products were prohibitively expensive and often with long lead times.

After a frantic two week period to manufacture some home-made luggage racks for our trip, we came to the conclusion that there had to be an easier way. The first professionally built XR650L frames came off the production line in September 2013 and Toys2Go has been gradually expanding since then.

Product Overview

The Toys2Go product range currently has a strong focus on off-road adventure motorcycle accessories, but we do not limit ourselves to any specific brand or genre. We are gradually expanding our manufacturer support base and our product range. However, if we don't have an off-the-shelf product for your motorcycle yet, we are always willing to look at customizing an existing product or do a new design with your inputs and based on your motorcycle.

Everything in our standard product range has been field tested by ourselves and/or our biking friends and we are constantly improving the designs based on feedback. We pride ourselves on quality, yet affordable products. We go to great lengths to ensure that all our products fit with the minimum hassle and with no modifications required to your motorcycle or our product. All the required bolts, nuts, washers and spacers are supplied with the kits.

A range of product finishes are provided to suit every taste. We will ship anywhere in South Africa or beyond (prices exclude shipping cost to areas outside Gauteng province). We are happy to supply references from our satisfied customers.

Product code: Z001-08

Integrated Pannier and Top Carrier Frame for KTM 690 Enduro R

The integrated carrier frame gives the user an all-in-one solution to attach both side and top carrier bags. The side carriers can also be ordered without the integrated top carrier.

Products are made from high quality stainless steel and can be ordered in a brushed stainless finish or in black powder coat paint. All required bushes, spacers and fasteners are supplied.

Honda XR650L Pannier Frames - Black / Silver / Stainless Steel

Luggage pannier frames, mild or stainless steel, powder coated.
